

September 06, 2025:

I am writing this message to record that every time I pick up my work to begin any sort of productive activity, a helicopter or jet engine begins making noise over my home.

I have been consistently experiencing an intentional effort to disrupt my work from a spying and surveillance system that can only be attributed to the United States military community.

Shame, shame, on all of America for allowing this problem to grow to such a degree. Shame on the American government for actively trying to prevent its own citizens from learning religion and other important philosophy.

Shame on the Republican Party for attempting to recruit me into their ranks, begging me to produce this work, and then causing harm to my life and property. Shame on Donald Trump for lying to the world.

Shame on the American police for not responding to my requests for service in any positive way. Shame on the San Antonio Police Department for sending an officer to accuse me when I reported that a man threatened me, and shot a gun, in my front yard.

Shame on the Democrat Party for everything that they did to push me back to a Republican Party that originated in the roots of George Bush, Dick Cheney, and Richard Nixon.

Shame on all of you for allowing our world to become so overrun with evil people that we cannot even read the Bible in our own home without being punished.

The United States of America is forcefully stopping my progress in life. The United States government is not a government of, by, and for the People. I placed my money, my work, my time, and all of my energy into sincere beliefs about God, God's wisdom, and American justice.

These are the results of my efforts. What kind of community is America? You be the judge.
